

**Client Information**

**Required Information**  
**Account #:** \_\_\_\_\_ **Account Name:** \_\_\_\_\_  
**Street Address:** \_\_\_\_\_  
**City, ST, ZIP:** \_\_\_\_\_  
**Phone:** \_\_\_\_\_ **Fax:** \_\_\_\_\_  
**Additional Reporting Fax:** \_\_\_\_\_

Requisition Completed by: \_\_\_\_\_ Date: \_\_\_\_\_  
**Ordering Physician:** \_\_\_\_\_ **NPI #:** \_\_\_\_\_  
(please print: Last, First)  
**Treating Oncologist/Physician:** \_\_\_\_\_ **NPI #:** \_\_\_\_\_  
(please print: Last, First)

By completing this section, the undersigned certifies that he/she is licensed to order the test(s) listed below and that such test(s) are medically necessary for the care/treatment of this patient.  
**Authorized Signature:** \_\_\_\_\_ **Date:** \_\_\_\_\_

**Billing Information**

**Required: Please include face sheet and front/back of patient's insurance card.**

**Patient Status (Must Choose 1):**  Hospital Patient (in)  Hospital Patient (out)  Non-Hospital Patient  
**Bill to:**  Client Bill  Insurance  Medicare  Medicaid  Patient/Self-Pay  
 Split Billing - Client (TC) and Insurance (PC)  OP Molecular to MCR, all other testing to Client  
 Bill charges to other Hospital/Facility: \_\_\_\_\_

Prior Authorization # \_\_\_\_\_ See neogenomics.com/billing for more info.

**Clinical Information**

**Required: Please attach patient's pathology report (required), clinical history, and other applicable report(s).**  
 ICD 10 (Diagnosis) Code/Narrative (Required): \_\_\_\_\_

Reason for Referral: \_\_\_\_\_  
 New Diagnosis  Relapse/Refractory  Monitoring  MRD

**Bone Marrow Transplant** (required information for Oncology Cytogenetics):  
 None  Autologous  Allogeneic  Sex Mismatch

**Consultation**

**COMPASS®** Comprehensive evaluation including morphology  
 Blood and/or Bone Marrow  
 Paraffin block for Morphology to follow

**COMPASS® Select:** (Without morphology)  
 Blood and/or Bone Marrow  
 - Morphology performed by client  
 (Morphology report required. Please fax to avoid testing delays.)

**Lymphoma Consult**  
 Lymph Node/Tissue for Lymphoma\*  
 \*Split fresh specimens to RPMI and formalin  
 Paraffin block for Morphology to follow

A NeoGenomics pathologist will select medically necessary tests (with any exceptions noted or marked by the client) to provide comprehensive analysis and professional interpretation for the materials submitted.  
**Please attach CBC for Blood and Bone Marrow (required)**  
 Do not add NGS Profile without prior approval

**Flow Cytometry** G - Global T - Tech-Only Follow-Up/Add-On panels are available in conjunction with, or after, a Main Panel result has been reported by NeoGenomics or client.

**Diagnostic/Prognostic Panels**

<b>G T</b>	<b>Add-On Tubes</b>	<b>Follow-Up Panels</b>
<input type="checkbox"/> Standard L/L Panel (24 Markers)	<input type="checkbox"/> AML	<input type="checkbox"/> AML
<input type="checkbox"/> Extended L/L Panel (31 Markers)	<input type="checkbox"/> B-ALL	<input type="checkbox"/> B-ALL
<input type="checkbox"/> High Sensitivity PNH	<input type="checkbox"/> CLL/Mantle Cell Companion	<input type="checkbox"/> N/A B-ALL

<input type="checkbox"/> NA CLL MRD Panel		
<input type="checkbox"/> NA MM MRD Panel		

**Specimen Hold Option:**  Refrigerate and Hold  
**Tech-Only Opt Out Option:** To avoid delay in patient care and as medically necessary for an individual patient, additional markers will be added by the flow lab when abnormal populations are detected. Please refer to NeoGenomics Flow Cytometry Guidelines for additional information on tech-only add-on medical necessity criteria. Tech-only clients may instruct NeoGenomics to not follow this stated criteria by checking this box.

**Cytogenetics**

Oncology Chromosome Analysis  
 Reflex to FISH if cytogenetics is normal (reflex FISH panel must be selected)  
 Reflex to FISH if cytogenetics is incomplete (<20 metaphases)  
 G T MDS Standard FISH  
 G T MDS Extended FISH

Follow-up Constitutional Chromosome Analysis (only if recommended by Oncology Chromosome Analysis)  
 Other: \_\_\_\_\_

**Specimen Hold Option:**  Culture and Hold (liquid samples & lymph nodes; n/a for solid tissues)

**Specimen Hold Option:**  Extract & Hold - TNA (all tests are TNA-based)

\*Note: The FLT3 Mutation Analysis test is available as client-bill only when ordered with NeoTYPE and Neo Comprehensive. The Molecular case reports separately from the NeoTYPE or Neo Comprehensive Profile (which also includes FLT3 gene by NGS) for the purpose of prompt therapy selection in patients with a new diagnosis of AML.

**WRITE-IN**

Any testing ordered in the Write-In section will be sent to a reference laboratory that has NY licensure to perform requested testing. NeoGenomics will facilitate logistics on behalf of the client. NeoGenomics testing will be prioritized.  
 Other: \_\_\_\_\_

**FlexREPORT®**

FlexREPORT: Please add summary report option to this case.

## Specimen Requirements

Refrigerate specimen if not shipping immediately and use cool pack during transport. Please call the Client Services team with any questions regarding specimen requirements or shipping instructions at 866.776.5907 option 3. Please refer to the website for specific details on each specimen.

## Additional Billing Information

Any organization referring specimens for testing services pursuant to this Requisition Form ("Client") expressly agrees to the following terms and conditions.

- 1. Binding Service Order.** This Requisition Form is a contractually binding order for the services ordered hereunder ("Services") and Client agrees that it is financially responsible for all tests billable to Client hereunder.
- 2. Third Party Billing by NeoGenomics and Right to Bill Client.** Client agrees to accurately indicate on the front of the Requisition Form that either Client should be billed (e.g., Client receives reimbursement pursuant to a non-fee-for-service basis, including, but not limited to, a capitated, diagnostic related group ("DRG"), per diem, all-inclusive, or other such bundled or consolidated billing arrangement) or NeoGenomics should bill the applicable federal, state or commercial health insurer or other third party payer (collectively, "Payers") for all Services ordered pursuant to this Requisition Form. For all such Services billable to Payers, Client agrees to provide all billing information necessary for NeoGenomics to bill such payer. In the event NeoGenomics: (i) does not receive the billing information required for it to bill any Payers within ten days of the date that any Services are reported by NeoGenomics; (ii) the Services were performed for patients who have no Payer coverage arrangements; or (iii) the Payer identified by Client denies financial responsibility for the Services and indicates that Client is financially responsible, NeoGenomics shall have the right to bill such Services to Client.

## Additional Specimen Information

If submitting multiple blocks, clients must indicate either "Choose best block (global molecular/NGS testing only)", or assign the selection of blocks to individual tests. If multiple blocks are sent without a selection, they will be held until clarification is provided. Please call Client Services team with any questions regarding specimen information.

## Specimen Hold Option Descriptions

To preserve the integrity of samples and avoid unnecessary testing, NeoGenomics Laboratories offers the option of processing samples to maintain specimen integrity for extended periods, without a test order. Any hold order will result in billed charges to the ordering client if testing is not ordered/performed. Specimen Hold Options include:

**FISH: Direct Harvest and Hold:** FISH specimens will be minimally processed and directly harvested while the cells are still viable. Analysis is not performed until the client test order is received. Processed samples will be retained for 28 days. **Plasma Cell Enrichment and Hold:** Plasma cells will be isolated for bone marrow specimens. Sample should be received at NeoGenomics Laboratories within 72 hours of collection. Analysis is not performed until the client test order is received. Processed samples will be retained for 28 days.

**Flow Cytometry: Refrigerate and Hold:** Flow cytometry samples will be refrigerated and retained for 28 days, however, optimal stability is within 72 hours of collection.

**Molecular Testing: Extract Nucleic Acid and Hold:** Nucleic acid (DNA or RNA or TNA) will be isolated from viable cells and stored in a freezer. **Use this option when it is known which test(s) may be added.** Analysis is not performed until the client test order is received. Processed samples will be retained for 28 days.

## Test Descriptions

Please see complete test descriptions and all available tests at our website, [www.neogenomics.com/test-menu](http://www.neogenomics.com/test-menu).

## Test Notations

### Specimen Usage

NeoGenomics makes every effort to preserve and not exhaust tissue, but in small and thin specimens, there is a possibility of exhausting the specimen in order to ensure adequate material and reliable results.

### FlexREPORT®

FlexREPORT can be ordered on any global or tech-only testing referred to NeoGenomics. This report template can be used to import data and images collected from testing performed outside of NeoGenomics, and incorporated into a one page summary report. Client logo and contact information will be in the header of the FlexREPORT.

### FISH

Plasma cell myeloma FISH panels: Plasma cell enrichment will be performed on bone marrow samples having plasma cell FISH. Sample should be received at NeoGenomics Laboratories within 72 hours of collection.
